Decision to request revisions for EHP Submission 15-10846-COM

Dear Dr. Cogliano:

Just for your information - I have requested revisions of "AN INTEGRATED EXPERIMENTAL DESIGN FOR THE ASSESSMENT OF MULTIPLE TOXICOLOGICAL ENDPOINTS IN RAT BIOASSAYS" by Mandrioli et al, which you reviewed for EHP.

It will not be published in EHP until all important points raised by the reviewers are adequately addressed.

I will reserve judgment on acceptance or rejection of the paper pending receipt and examination of the revision. The help you gave us for the reviews was greatly appreciated.

All of the reviewers' comments are included below for your information.

Your expert review was a valuable service to the authors and serves to maintain the quality of the journal. Thank you again for your help.

Sincerely,

Sally Perreault Darney

Editor's Comments:

The reviewer comments identify important questions that need to be addressed. It is critical for you to respond to all of them in your revised manuscript. Sally Darney EIC
